## Lattice Tube Options

Alumawood™ shade structures offer four lattice tube sizes to help design the outdoor living space you envision.

Known for quality and value, Alumawood™ shade structures are the premier brand in the aluminum patio cover market. Every lattice tube features a rich, woodgrain texture manufactured with quality in mind. As with all Alumawood™ shade structure products, the lattice tubes are painted with the Aluma-Shield<sup>SM</sup> paint system with TEFLON<sup>®</sup> surface protector. Not only is this the highest performing paint system and best value in the market, it is also backed by a limited-lifetime warranty.

Alumawood™ shade structures are available in seven attractive colors to complement your home's exterior.
